

# HUMAN VALUES FOUNDATION

## \* Our Silver Jubilee Story

# Mrs June Auton

- \* **In August 1995 pioneering, experienced Primary School teacher, the late Mrs June Auton, established the Human Values Foundation.**
- \* **Over 2,000 schools took her ground-breaking programme EDUCATION IN HUMAN VALUES (EHV) for ages 5 to 11.**

# Education in Human Values

**EDUCATION IN HUMAN VALUES** comprised 44 lesson plans centred around the universal core values of:

- \* **TRUTH**
- \* **LOVE**
- \* **PEACE**
- \* **RIGHT ACTION**
- \* **NON-VIOLENCE**

# Social and Emotional Education

- \* Children found EHV so beneficial they asked for a secondary programme ... so in 2004 we published June Auton's SOCIAL AND EMOTIONAL EDUCATION (SEE) programme: 34 learning modules for ages 12 to 14+.
- \* It also proved to be invaluable for helping some older children get their lives 'back on track'.

# Research into Values Education

**Authoritative research shows that good, systematic values education:**

- ✓ **is essential to effective schooling**
- ✓ **positively impacts all the important educational measures**
- ✓ **is a worldwide, contemporary phenomenon**
- ✓ **fits well with updated brain and pedagogical research, and**
- ✓ **is a means to holistic student and teacher wellbeing.**

# The Big Think (TBT)

\* In 2019 we launched **THE BIG THINK**: 44 engaging modules for ages 5 to 7 and 44 for ages 7 to 11 to progressively enrich children's learning for life.

\* TBT was developed by our innovative, passionate teacher - Sarah Pengelly.

# Quality Education For Life

\* The Big Think enables children to use values to create quality in all the dimensions of their lives.

\* Its cohesive approach helps all participants flourish and maximise their potential.

# The HVF: “a beacon of light”

- \* For 25 years the Human Values Foundation, with its values-themed resources, has been known as a “beacon of light in the education sector” with accolades from teachers, children and parents alike.

# \* Happiness \* Vision \* Fulfilment \*
