Bouncing Back to School

Introducing 32 Assembly and Lesson Kits!!

Meeting the new RSHE statutory requirements

During lockdown, The Big Think team has been busy creating new Assembly and Lesson kits so primary schools can enjoy a comprehensive 2-year rolling programme that meets the new RSHE requirements and a wider PSHE curriculum as well as boosting Wellbeing.

We commissioned 8 new authors to write 32 new The Big Stories based on diverse issues affecting children in the UK.

Here is a selection of our new values and story titles:

Commitment - All Shapes and Sizes

Pride - #YOLO (You Only Live Once)

Justice - Taking the Knee

Belonging - Beyond the Binary

Solitude - School Night Tussle

Equality - Star Power

See [here](#) how the new sessions link with core Social and Emotional (SEL) skills and the statutory Relationships and Sex Education (RSE) curriculum.

RSHE Planning for the Summer Term

The Big Think schools are saying that our flexible programme is coming into its own as they can plan an RSHE Overview that actually meets the children's needs as they are right now, rather than just ticking boxes.

Eastfield Primary in Enfield is choosing to return with our new **PEACE sessions Belonging, Solitude, Resilience and Play** which focus on **self-regulation skills**.

Find out more from PSHE Lead Katherine Mannion in her [TBT blog](#).

Weston Park Primary in Haringey is starting with our free [Circles of CARE](#) sessions to help children reconnect with one another through their school values, then they are hand-picking sessions across all 5 of our core values that they feel their children need or that match their events calendar - many are **Community sessions** which focus on **social-awareness skills** and the environment.

They can also use our Assemblies on Saving Water and Clean Air to mark World Water Day in March and Clean Air Day in June.

Join our next FREE workshop to see if the new The Big Think programme is a good fit with your school!

An opportunity to experience a lesson and connect with TBT schools.

Book your place in this FREE Workshop

Alternatively, feel free to email us to book a phone call so we can talk through the programme and how it might meet your needs.
